

Dear Karen

Thanks again for hosting us on Friday evening - it was a delight to be able to see, and use, your lovely shiny new premises! Here is a short summary of the event.

On the eve of the Open Day for the new Cambridge ESOL (Appenzell AI, Appenzell AR, St. Gallen and Thurgau) premises, Jayne Herzog and Jennifer Hinam of OUP Switzerland were welcomed to the centre to give a two part presentation of OUP's new online testing service (www.oxfordenglishtesting.com <<http://www.oxfordenglishtesting.com>>).

We looked at the science behind creating a reliable, validated and easy to administer placement test, then examined how [oxfordenglishtesting.com](http://www.oxfordenglishtesting.com) can support summative and formative assessment and how these can influence the learning process. All participants were assigned a placement test via email during the session and offered the chance to take a free trial of the full [oxfordenglishtesting.com](http://www.oxfordenglishtesting.com) system.

The evening finished up with questions and answers and a chance to catch up with friends and colleagues over an apéritif.

All best

Jennifer
