

Results Online for Candidates - Release of FCE, CAE and CPE Results from the December 07 Exams

This is to notify you that due to the growing popularity and usage of Results Online, we are looking at how we can ensure that the service we offer candidates is as fast and reliable as possible.

With this in mind, we are increasing the capacity of the website in line with increases in the number of concurrent users. We are also making some changes to the timings of results releases and from the December 07 session, FCE results will be released at 10.00, CAE at 13.00 and CPE at 15.00 (UK times). These timings will be displayed to candidates when they access Results Online but we are also making centres aware of this change.

Please note that the results release date for FCE, CAE and CPE is the 1 February 2008.

Thank you very much for your contribution to the popularity of this service.
